programing
(OOP)

OBJECTIVE

I am a motivated and enthusiastic Computer Science student seeking an internship or entry-level position to leverage my skills in HTML5, CSS, Bootstrap, and JavaScript. Additionally, I possess foundational knowledge in Object-Oriented Programming (OOP) and Data Structures and Algorithms (DSA). I am committed to continuous learning and dedicated to exploring new technologies to make meaningful contributions to the field of web development.

PROJECTS

FRONT-END PROJECTS

PROJECT NO 1:

Designed and developed a portfolio website using HTML, CSS, and a bit of JavaScript to showcase my projects, skills, and professional achievements.

PROJECT NO 2:

Developed a calculator app with a user-friendly interface for performing basic arithmetic operations.

PROJECT NO 3:

Developed a weather app using API integration to provide real-time weather data, showcasing skills in API usage and user interface design

OOP PROJECT

PROJECT:

Created a hospital management system using OOP principles in Java, integrating a SQL database for efficient data management. This project highlights my skills in Java programming and database connectivity.
